

ARE YOU DUE

FOR YOUR

ANNUAL

DILATED EYE EXAM?

Feeling good and living life to its fullest also means taking good care of your eyes. A comprehensive dilated eye exam is important to maintain and protect healthy vision.

If you have diabetes, detecting early eye damage may prevent blindness. **The longer a person has diabetes, the greater the risk for diabetic eye disease. Once vision is lost, it often cannot be restored.**

People with diabetes should have a comprehensive dilated eye exam at least once a year to help protect their sight.
